If your goal is **job hunting**, I can compile a much more useful list of:

- [100+ companies in KAFD that hire software engineers](#)
- [Their careers pages](#)
- [Whether they sponsor visas](#)
- [Whether they have graduate or entry-level programs](#)
- [Which ones are best for backend, frontend, AI, or full-stack roles.](#)

Give me a list of 100+ companies in KAFD that hire software engineers

A complete list of **100+ companies physically located in KAFD** is **not publicly available**. KAFD states that it hosts **140+ commercial tenants**, but it does not publish a tenant directory. [KAFD +1](#)

However, if your goal is **finding software engineering jobs**, here's a curated list of companies that either:

- Have offices or regional headquarters in **KAFD**, or
- Have a significant Riyadh office very close to KAFD and regularly hire software engineers.

Best targets for a junior backend/full-stack engineer

Based on your React, FastAPI, PostgreSQL, Docker, and ML background, these are among the strongest employers to prioritize:

- Accenture
- Globant
- Endava
- LTIMindtree
- OpenText
- Microsoft
- Oracle
- IBM
- SAP
- Huawei
- Visa
- Aramco Digital
- NextEra
- Elm
- Mozn
- Lucidya
- Lean Technologies

- Foodics
- Geidea
- Tamara

These companies regularly recruit software engineers and work on technologies such as Java, .NET, Python, React, Node.js, cloud platforms (Azure/AWS/GCP), Docker, Kubernetes, and AI. Some, like OpenText, Huawei, Visa, LTIMindtree, and NextEra, have announced regional headquarters or major operations in KAFD itself, while KAFD continues to expand its technology tenant base.
